

QPHS Health and Social Care Curriculum Intent

At Queen's Park High School the Health & Social Care curriculum is designed to fulfil the schools core vision; 'Inspiring Individuals, Empowering Minds, Defining Futures.

Inspiring Individuals

- Provide an inclusive and balanced curriculum so that all students have an awareness and understanding of the development stages of individuals and the health care services available to everyone in England.
- Enhance student's knowledge of health and social care through the use of advanced subject specific vocabulary and application of all knowledge to real life case studies.
- Provide students with an opportunity to develop a love of learning via real life case studies, to inspire them to enter into a career within the health and social care sector

Empowering Minds

- Develop students' essential skills that will support their progression through key life events. Skills such as communication, adjustment and adaptation and the ability to empathise
- Foster an understanding of the complexity of people's lives as a result of key life events and the importance of the role health care professionals play in changing and supporting individuals.
- Encourage students to explore and be curious about their own progression through life to ensure full understanding of each of the stages they pass through.

Defining Futures

- Empower students to develop key skills, attributes and values necessary for a profession in the health and social care system
- Promote mutual respect and tolerance of the different views they will encounter within health and social care lessons.
- Ensure students have the knowledge and skills to make informed choices about their future options linked to studying Health and Social Care, post 16.
