

QUEEN'S PARK HIGH SCHOOL

Sixth Form Prospectus

Inspiring Individuals • Empowering Minds • Defining Futures

"I chose Queen's Park High School because of the outstanding level of support shown by all the sixth form staff towards the students. We get ongoing personal support by teachers, both in and out of lessons in a comfortable environment which encourages me to achieve the best outcomes in my subjects."

Year 13 Student

Sixth Form Leadership Team 2026-27

Welcome

Welcome to Queen's Park High School Sixth Form. We are an academy within The Learning Trust, situated in the heart of Chester. We work in partnership with Christleton High School, Chester International School and Belgrave Primary School to serve young people; to educate, enlighten and give them the expertise, confidence and qualifications to succeed.

As a school and Sixth Form we have ambitious outcomes for all our students. Our vision and practice are underpinned by the following principles:

- *Inspiring Individuals*
- *Empowering Minds*
- *Defining Futures*

We provide a wealth of opportunity to further your learning, experiences and ultimately to be part of a very successful, caring and vibrant Sixth Form in a school led by Mrs Brown, our Head of School and Mr Kearns, our Executive Headteacher.

We pride ourselves on being an inclusive Sixth Form that provides a wide range of courses suited to the needs of our learners and we are proud of the results they achieve, which consistently

compete with other local schools and on a national level. Moreover, we ensure that throughout your time in the Sixth Form, you are given a wide range of experiences and opportunities to develop as an individual and to support you with taking the important next steps into higher education, training or employment.

This prospectus is a small part of the information you will require in order to make an informed decision about your future. You will find a warm welcome and plenty of guidance and support available from our dedicated and experienced team in order to help you make these very important choices.

Mrs V Prydden

Mrs V Prydden
Head of Sixth Form

"Pupils, and students in the sixth form, enjoy the calm and considerate culture at Queen's Park High School. They appreciate the positive relationships that they have with staff. This helps them to feel safe."

Ofsted 2025

Inspiring Individuals

We value the uniqueness of everyone in our school, and we are committed to *excellence in teaching* as a core value across the curriculum, so that all members of our community are inspired to learn and achieve.

We have high expectations of all our students, particularly those within our Sixth Form. Our school works around three core values and expectations: Be *“Prepared, Engaged and Respectful”*. Our students enjoy being members of a caring community in which every individual is known and valued. The Sixth Form team work together to provide high levels of support and challenge to our students as they prepare for examinations and life beyond school.

“Students in the sixth form [achieve well], due to the school’s high aspirations for all pupils, including those with lower-than-average starting points.”

Ofsted 2025

Students studying three A Levels continue to excel with the average grade increasing year on year. Many of these qualifications are in facilitating subjects, the qualifications which are most commonly preferred by universities.

Students are set aspirational targets and are supported to meet them. Students are given regular feedback on their progress so that they know how to improve.

“Current students in the sixth form are developing their knowledge effectively from their starting points.”

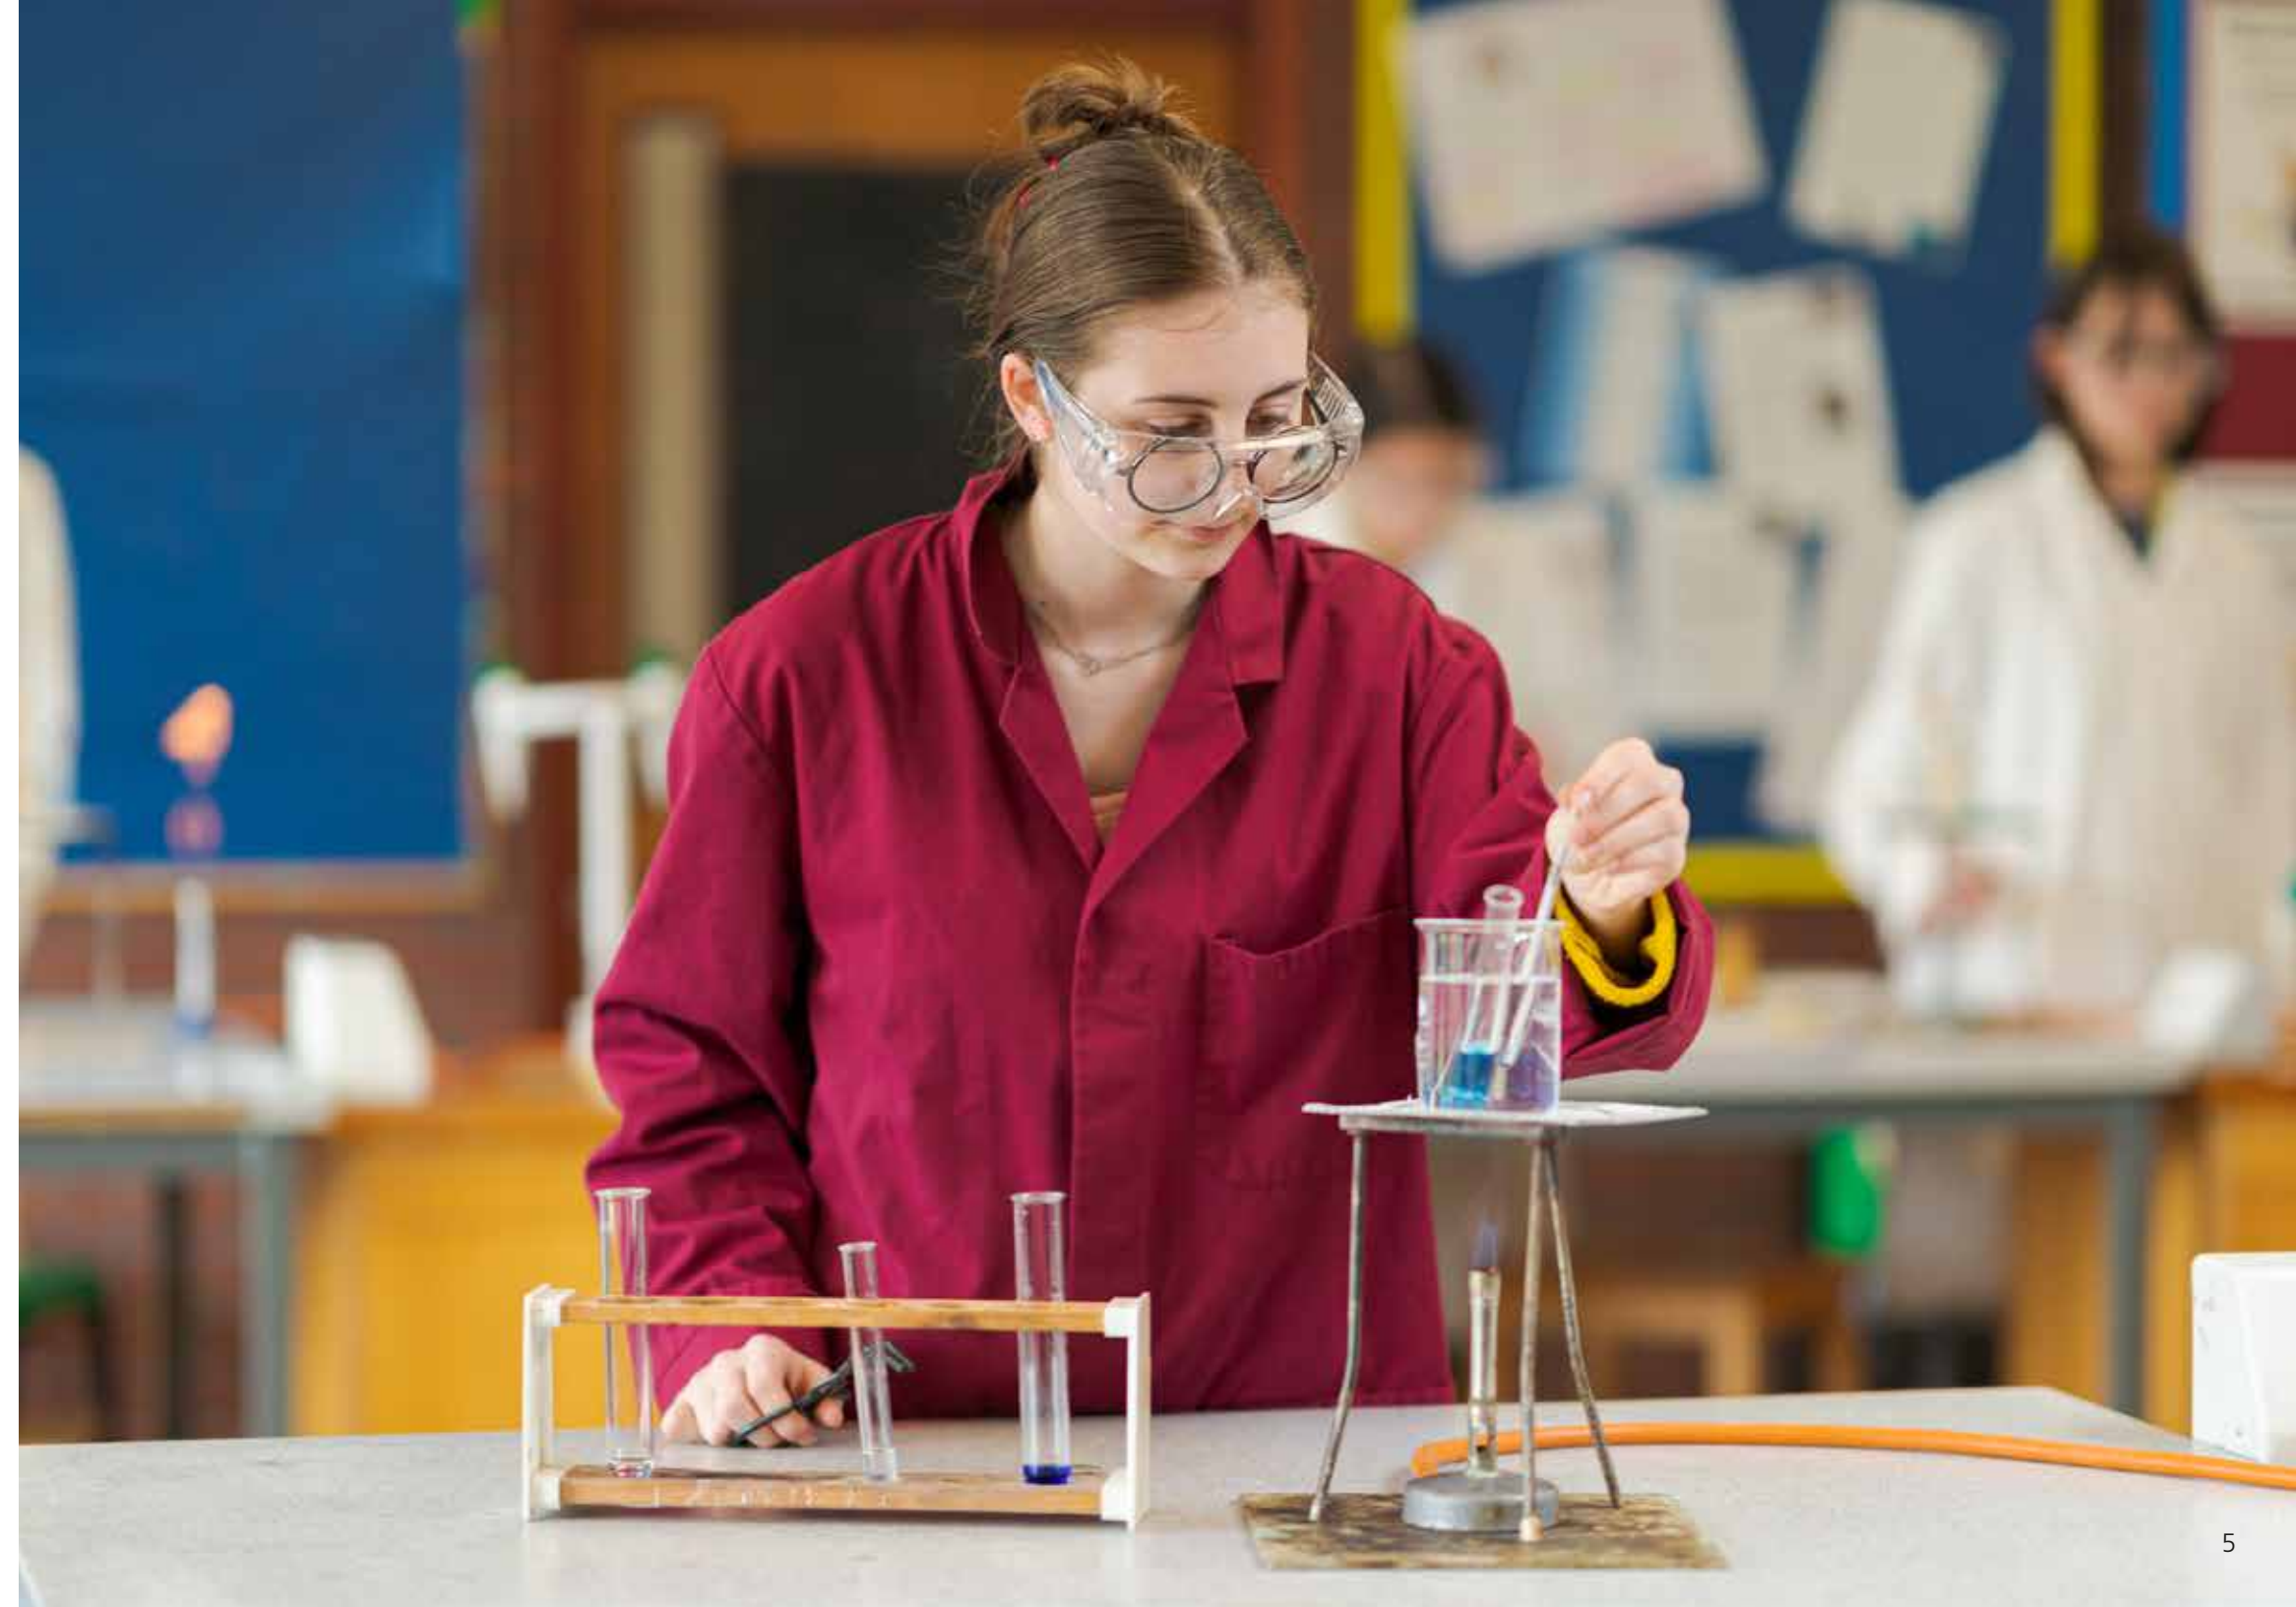

Ofsted 2025

Students wanting to study at Oxford or Cambridge University; or study Medicine/Veterinary/Dentistry are supported in their applications though additional internal and external programmes. This has consistently resulted in offers being made and students beginning degrees at leading universities.

Recent successes include progression onto Cambridge, Durham, York, Nottingham, Loughborough, Warwick and Manchester universities to study a range of subjects including English, Law, Physics, Maths, Geography, Chemistry and Cyber Security.

“Our three children have all flourished during their time at QPHS and we could not be more grateful for the education and support that they have received. From their very first days at the school, they were recognised as individuals, valued for their unique qualities and encouraged to pursue excellence in everything they did. The teachers set ambitious expectations for them but, those expectations were always accompanied by encouragement, care and a level of support that gave them the confidence to succeed. We are immensely proud of the young adults our children have become. They are confident, articulate, hardworking and compassionate and we firmly believe that their experiences at QPHS have been central to this. The school has not only provided them with an excellent education but shaped their characters, refined their strengths and helped them to become the very best versions of themselves.”

Chris and Jacqui Halewood,
Parents of Olivia, Josh and Dan

“Many sixth form students participate in the National Citizenship Scheme and the schools ‘Community Spirit Programme’. This helps them to develop their awareness of leadership and citizenship.”
Ofsted 2025

Empowering Minds

We believe that everyone has ideas to share, aspirations to realise, and opinions that matter. It is our mission to liberate young people to think freely, without constraint and beyond limits.

We pride ourselves on our innovative and flexible curriculum which is designed to meet the needs of all our learners; we offer a range of academic A Levels and vocational courses.

Our curriculum is reviewed annually and tailored according to the interests and needs of each cohort. Students are taught by experienced subject specialists who have a strong track record in supporting them to achieve their best.

Our super-curriculum enhances the enrichment of students’ subject knowledge and supports their applications to the most prestigious of universities.

Wider opportunities underpin our academic success with an expectation for students to be involved in school and community life.

Student leaders have a huge role to play and at Queen’s Park High School we pride ourselves on providing a wide range of opportunities such as Head Students and Heads of House.

Programmes including the Extended Project Qualification (EPQ), Duke of Edinburgh award (DofE) and Enrichment Programme enhance our students’ UCAS and apprenticeship applications, as they support their personal development.

“Being part of the Student Leadership Team gives us the opportunity to share our ideas and play an active role in making our school an even better place. We are passionate about inspiring a strong sense of community and encouraging creativity throughout the school. As Head Students, we have been proud to support and inspire younger students while helping to develop the next generation of student leaders.”

Head Students

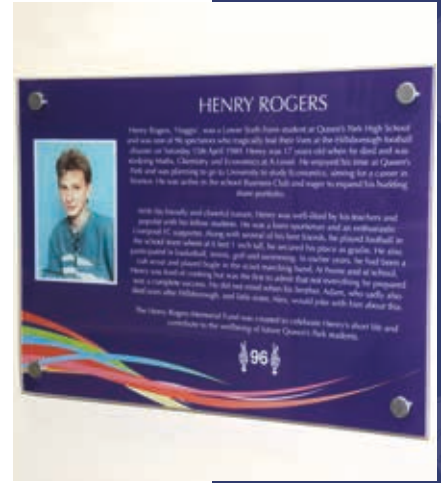

The Henry Rogers Sixth Form Centre

The Henry Rogers Sixth Form Centre is at the heart of Sixth Form life at Queen’s Park High School. Named in memory of former student Henry Rogers, who tragically lost his life in the Hillsborough disaster, it honours his legacy and the generosity of his family through a dedicated space that continues to inspire and support generations of students.

As our Sixth Form has continued to grow, a new centre opened in September 2026, providing enhanced facilities while continuing to reflect the values that Henry inspired.

Today, students enjoy a thriving Sixth Form environment that promotes both academic success and personal wellbeing. Alongside comfortable social and study areas, facilities include specialist study and conference rooms, access to a computer suite within the Library Learning Centre for timetabled independent study, and our popular on-site café, The Beach.

The centre provides an inclusive and welcoming setting where students can study independently, collaborate with others, and develop the confidence and independence needed as they prepare for their next steps.

"I believe that Queen's Park Chester Rowing Club is an incredible opportunity for you to grow as an individual and as part of a team. It has provided me with so many amazing experiences and lifelong memories."
Year 13 Student

Defining Futures

We are guided by the knowledge that the foundations of every young person's tomorrow are laid today. By achieving excellence in all that we do, we aim to make today's young people tomorrow's era defining leaders, thinkers and pioneers.

The school has an excellent reputation for providing a wide range of high quality personal development opportunities. We encourage our Sixth Form students to get involved in the wider life of school as we feel that it helps our young people to become well rounded individuals with a great deal to offer universities and employers in life beyond Sixth Form.

Opportunities include drama, music, sport (including a very successful rowing team), STEM activities, charity events to name but a few. Our post sixteen students also have opportunities to take part in a wide range of extra-curricular visits in this country and abroad.

"Queen's Park High School has expanded my views, beliefs and aspirations. A recent discovery of degree apprenticeships has motivated me to achieve my potential and inspired me to apply for a degree apprenticeship. The school has fuelled my ambitions and I believe this will enable me to reach my goals."

Year 13 Student

All students will complete a one week work experience placement at the end of Year 12. Our links with businesses and providers such as The Pledge, and Young Chamber of Commerce mean that students develop employability skills alongside academic qualifications, making them truly prepared for their next steps in a competitive world.

Our Sixth Form is consistently successful in ensuring that all learners go on to further education, training or employment.

During their time in the Sixth Form, students will have access to a pastoral programme which supports students with decisions about, and applications to, university and apprenticeship providers. Through our World Views and Personal Development (WPD) programme, students work closely with a range of organisations to prepare them for life in modern Britain and the wider world by equipping them to be responsible, respectful, active citizens who contribute positively to society.

Exceptional Results. Exceptional Futures.

In 2026, Queen's Park High School achieved its strongest-ever A Level outcomes, with over one in five grades at A- A and students progressing to some of the UK's most prestigious universities, including Oxford, Durham, Warwick and Manchester, as well as degree apprenticeships with National Grid.*

"I am absolutely delighted with my results and even more delighted that I can now study Chemistry at Oxford University. I cannot thank Queen's Park High School Sixth Form enough for their continued support. Throughout my schooling experience I have had a relationship like no other with the staff, and believe that this unique learning environment has allowed me to thrive and fulfil my full potential. Thank you."

Former Sixth Form Head Student

Advice and Guidance

We offer support to all applicants throughout the decision making process whether they be current students or applicants who are currently studying elsewhere.

Our experienced Pastoral Team will advise students on appropriate pathways of study in our inclusive Sixth Form. Interviews are offered to all students by senior members of staff and can be organised for external students at a convenient time. Careers advice from an independent Level 6 qualified careers adviser is also available to all students during the decision making process and as part of their on-going support during their time in the Sixth Form.

Partnership with Chester International School (CIS)
As a proud member of The Learning Trust, we are excited to be able to expand our offer to students through partnership with CIS. Students will now have access to some additional courses run by CIS whilst still being a member of QPHS Sixth Form. You can find out more in the course information guide.

Minimum Entry Requirements

Full A Level Package (3-4* A Level courses)

- 5+ GCSEs at grades 9-4 including a strong pass (grade 5) in English and Maths
- * The option to take four A Level courses will be made only in exceptional circumstances

Level 3 Package (mix of A Level and vocational Level 3 courses)

- 5+ GCSEs at grades 9-4

Maths
Grade 6 in Maths entry requirement to study Maths A Level

Science
Grade 6 in Science and maths recommended to study Biology, Chemistry and Physics A Levels. Students must have sat the higher tier papers for Science and Maths at GCSE.

Level 3 BTEC Extended Diploma in Uniformed Protective Services
(equivalent to 3 A Levels)
• 5 GCSES grades 9-3

In addition, student's attendance, punctuality and attitude towards their learning will be considered for the successful completion of the recruitment process.

"The limitless amounts of effort, understanding and passion displayed by the tutors at this school inspired me to further my learning at university and ultimately pursue a career in the Dramatic Arts."

Actor/Former Student

"Standing on this school's stage aged 14, learning how to project myself to an audience through the help and dedication of the teaching staff, would one day play a massive part in me having the confidence to speak aloud in press conferences, questioning global superstars in the NBA and NFL, presenting videos for sports companies and engaging with listeners live in radio sports debates."

"Queen's Park has given me access to opportunities I had never thought of before sixth form. Through dedicated, attentive teachers I have been able to excel in my subjects and develop as an individual. I am thankful for the experience, and hope new students will be able to take as much away from this as I have."
