9<sup>th</sup> September, 2022

Dear Parent/Carer,

## Re: KS3 Literacy and Super-Curriculum Homeworks

As you may know, in the summer term the school trialled a different approach to homework setting both extended learning projects and literacy tasks for students to complete at home.

We firmly believe that the best way we can enable students to achieve academic success is through the development of their literacy skills. To this end, each week subjects will be setting literacy homework tasks for students to complete as per the literacy homework timetable attached. You can check which tasks students are expected to complete via the EduLink App.

In addition, we know that enriching the educational experience is just as important as addressing the fundamental basics. To this end, we will continue to set projects for students to complete over each term which will be celebrated before either the October ½ term, or the Christmas holiday (depending on the length of time subject areas give for students to complete them). Each subject area will have a project available for students to opt into with a suggestion that they work on at least one, but a maximum of three, each half term. These projects can be found on a bespoke Microsoft Teams channel which your child is able to access. These projects are part of our 'super-curriculum' i.e. the curriculum that extends learning beyond the classroom and culturally enriches students' learning experiences.

We look forward to celebrating the efforts and many successes students will have over this year and seeing both their literacy and independent learning skills flourish. If you have any questions or would like support with how to access the projects, please feel free to contact me at school.

As always, thank you in anticipation of your support,

Yours sincerely,

**Mr. M. Yeoman**

**Assistant Headteacher**
