Dear Parent/Carer,

Re: KS4 Homework Timetable

Please find below a copy of the KS4 homework timetable which teachers will be using to set regular and pertinent homework related to their subject.

The timetable is in place to help ensure that students do not receive too much homework on some days and none on others. We firmly believe that homework is an opportunity to consolidate learning, prepare students for further study and help students to become independent learners who value their own studies. It forms an integral part of our examination courses serving to support students to learn and revise material in preparation for their external assessments.

Homework tasks set can be viewed via EduLink One, which both students and parents can log in to using unique accounts – parent accounts are different to student accounts. This also shows the students' timetable which will indicate the class they are in for each subject. If you require your unique login details, please contact the school via phone or email to request them.

We want homework to be purposeful and conducive to the development of learning. To this end, if no homework is set for a particular subject students should visit their class Teams channel and access resources which will help to support and extend their learning.

If you have any questions about homework, please contact your child's subject teacher in the first instance.

Yours sincerely,

Mr. M. Yeoman

Assistant Headteacher
